8.3 SCRUTINEERING

After having passed all the administrative checks, the crews must submit the cars to scrutineering, in the ways and times stated in the programme. Failure to do so will lead to the cars being excluded from the race. Checks will be as follows.

- a) check of the correct positioning of the stickers in compliance with Articles 8.2.1 and 8.2.2 of these SRR and check of the sound and light signals suitable for travelling on the road;
- b) check of the following documents, to be presented as originals:
 - FIVA International Identity Card and/or FIA Heritage Certificate and/or valid ACI Sport Fiche and/or HTP FIA concerning the competition car;
 - check that notified data correspond with registration data (year of manufacture and chassis number);
- c) placing of safety equipment as per Article 8.5 of these SRR.

8.4 SAFETY EQUIPMENT

The GPS tracker equipment supplied by the organiser must remain installed on the competition car for the entire duration of the race. The equipment must be returned to the CO/TC at the final arrival.

The device will be pre-installed during the technical checks by specific technicians (a strip of velcro will be applied on the vehicle to fix the device) and all necessary information as well as a use manual for the device will be provided, as well as a release form for the use of data recorded on the device itself.

The "GPS Tracker" will track compliance to the route of the race by the team and will also record the speed of the car. Recorded data will be available to the Race Directors and Stewards in order for them to take disciplinary action against the competitors who have broken the Road Safety Rules and the race regulations, aside from any other provisions that could be taken by Police Officers who have detected an infringement of the law. Data could be made available following a request by the legal authorities.

Data held by the Organiser will be stored in compliance with the Law of 8 April 2010 "Provisions in matters of video-surveillance".

Mercedes-Benz Mille Miglia Challenge 2018

Regolamento Particolare di Gara - Supplementary Regulations

In the case of loss or malfunction of the device the competitor will notify this to the Competitor Relations Officer at every T.C. or those responsible for technical devices present at every lunch break and every arrival/start of each Leg.

In the case of withdrawal of a competitor along the route of the various stages, the device will be returned to the Competitor Relations Officers or to the persons responsible for this in the Technical Support Convoy (Technical Car and Pace Car).

8.5 OBLIGATIONS OF COMPETITORS

Throughout the event, drivers must drive prudently and carefully, scrupulously respect the Italian Road Traffic Law and instructions given by the Clerk of the course and by Race Officials.

The Race Officials - those in Charge (Article 2 of these SRR) positioned in the Technical Support convoy (teams in the Front Car, Pace Car and Technical Car) and Road Traffic Police Officers will notify violations and offences of the Regulations and the Instructions stated above.

In the case of infringements the Clerk of the course will notify the Stewards who will apply the following penalties:

- first offence: 1.000 negative penalty points;
- second offence: 12.000 negative penalty points;

Depending on the seriousness of the offence, the Stewards will apply the penalties up to exclusion from the event, even after only one offense.

In each Lap the Race Director can undertake speed checks on all the cars in the race.

The Organiser reserves the right not to accept cars whose drivers have been penalised in previous editions of the Mille Miglia event.

The Race Officials along the route as well as all the cars in the Technical Support convoy (Article 2 of these SRR, teams in the Front Car, Pace Car and Technical Car) and Road Traffic Police Officers will also be responsible for supervising the conduct of the competitors and their service and team vehicles, notifying the Clerk of the course of any offence but without taking any independent decisions.

Also Road Traffic Police Officers and local Police Forces in the relative areas can notify the Clerk of the course of any offences by competitors and their service and team vehicles.

Driving behaviour should always be prudent for oneself, for Officials, and especially for spectators.

Each competitor is always responsible also for the behaviour of their service and team vehicles, which must necessarily strictly observe the instructions given by Officials and Marshals and must follow the route envisaged in the Road book in some parts of the race route. Failure to comply with this provision will result in sanctions against the relevant competitor, and may even lead to expulsion from the race, at the Stewards discretion.

8.6 CHECKING OF PERSONAL IDENTIFICATION DEVICE (CPI)

For the entire duration of the event, the Officials on duty can ask the drivers to see their CPI (see Article 8.1.2 of these SRR). Drivers that cannot show their stickers could be expelled from the competition by the Stewards.

Article 9 - RUNNING OF THE RACE

9.1 START

The cars will leave one at a time, from a stationary position with the engine running, three cars departing every minute. Each car, once they have been given the "go", will have to free the Departure area as quickly as possible.

Under the control of Officials, departure may take place by pushing the car, if it fails to leave on its own.

Competitors must not stop the competition car in the control areas (between the areas signalling the Start and End areas), exception being made for the check areas where the authorisation stamp will be printed

Mercedes-Benz Mille Miglia Challenge 2018

Regolamento Particolare di Gara - Supplementary Regulations

by the Officials, reversing, changing direction, opening doors and in any way hindering the other teams will lead to the application of the penalty as stated in Article 11 of these SRR.

The teams that do not make the CO/TC 1 Brescia - Departure Leg 1, will be penalized as specified in Article 11 of these SRR for each missed transit check. Transit at CO/TC of the Leg 2 - Departure will still be mandatory, under penalty of exclusion.

Drivers must keep to the Official Race Times stated in the Itinerary Table. No restrictions will be imposed on them as regards the use of time recording equipment. The same may be synchronized with the clock placed at the start of each Leg, without direct connection to the said clock.

Any defect in detection of times, caused by any failure or malfunction of the equipment, will result, for the said checks, in the application of the average to each competitor and/or the annulment of the checks themselves for all competitors.

The organisers will state in the Road book, and this will also be indicated on site, a straight stretch of road with measurements, used as the measured base in the preparation of the Road book, and competitors can verify this before the race.

9.2 TIME CONTROLS (CO/TC)

The purpose of the Time Control (CO/TC) is to outline the areas in which the route of the race is divided, in order to regulate the conduct of the same and to make sure the average speed is respected.

Each competitor (even when 3 cars a minute have been planned for) must be measured on the minute (e.g. for transit time 14:01 it will be possible to transit without penalty from 14:01:00 to 14:01:59). The excesses as regards the ideal times established will determine the classification.

Penalties for delays and early arrivals at a CO/TC are those stated in Article 11.1.1 of these SRR.

Delays and early arrivals at a CO/TC must not be caught up in the next CO/TC. Teams must leave the "check area" free for transit. They are authorised to enter this area on board their car, in the minute preceding the ideal one for transit, and remain in the area for the time strictly necessary to record the transit time.

When the time is being read, the car must be inside the time reading area.

During reading operations at least one member of the team must be on board the competition car.

The time used for the reading operation is not neutralised in any way. The reading is taken at the moment when one member of the team hands over the Time Card to the Time-keeper.

In the case where competition cars that are late or in advance of their ideal times transit through the CO/TC in the minute pertaining to cars on time, the Time-keeper will make a note, on the Time Card of the team that is late or in advance, of the real transit time, which corresponds to the start of the next sector, giving precedence, in the marking operations, to the team with the less delay on the ideal transit time.

All the CO/TCs will be appropriately marked with signs in compliance with the examples attached to these SRR (Attachment 6).

Vehicles transiting through a OC/TC in the opposite direction or a direction other than the one decided by the organiser, will be excluded from the race.

9.3 TIME TRIALS (PC/TT)

Time Trials (PC/TT) are those timed areas of the route, between two consecutive readings where the drivers must keep to a set time indicated in the Itinerary Table and in the Time Card.

Readings will be done at 1/100th of a second without any tolerance. Differences in the ideal time will, as for the differences read at CO/TC, be used in determining the classification.

PC/TT will be undertaken with departure read at free entrance; the driver will be able to freely choose the start of the PC, nonetheless within approx. 5 seconds from the "all clear" given by the Marshals and/or the Time-keeper in charge.

Various consecutive PC/TTs will be envisaged (interconnected), where the time for passing to the final reading of the previous PC/TT will be the start time of the next PC/TT, and so forth.

Mercedes-Benz Mille Miglia Challenge 2018

Regolamento Particolare di Gara - Supplementary Regulations

For PC/TT located in equipped areas or temporary circuits, race tracks, kart racing tracks, and for PC/TTs with lengths less than 300m, an appropriate map will be attached with the Road Book.

All PC/TTs will be properly marked both at the start and at the end, with signs in compliance with the examples attached to these SRR (Attachment 6).

In the area of the route between the yellow sign and the beige sign showing the start and end of the measuring area, cars are not allowed to park, stop or open the doors. Should any cars stop in this measuring area due to a breakdown, they must be immediately removed according to the instructions given by the race official, on penalty of exclusion. Furthermore unauthorised access by drivers and navigators is also forbidden.

Vehicles transiting through a PC/TC area in the opposite direction than the one decided by the organiser, will be excluded from the race.

In the event of failure to carry out one or more TT or should there be no result for the same, for whatever reason, the competitor(s) concerned will receive a penalty of 300 points for each TT not undertaken or lacking a result.

The application will be implemented on completion of the TT concerned, unless the competitor/s officially communicate/s his/their withdrawal from the race.

This provision does not apply in the case of "awarding of the average" by the Clerk of the Course following the report of the Stewards responsible for the posts where the events occurred.

9.4 AVERAGE TRIALS (PM/AT)

Average Trials (PM/AT) are those areas of the route within a sector, where drivers must keep to a set hourly average, stated in the Itinerary Table and the Time Card.

For each PM / AT, for the purposes of classification of the trial, all the detections carried out be considered, then proceeding to the calculation of the average penalty.

The Road book will state the start area and the place of the maximum real limit of end of the PM/AT. In the area from the start to the end of the PM/AT, the average is taken at one or more points not known to the driver.

The Itinerary Plan will state the number of readings envisaged for each PM/AT. Every Average Trial could plan up to 5 readings.

The exit time is read in seconds, manually, with writing equipment.

9.4.1 START OF AVERAGE TRIALS

a. the start time of the PM/AT is free and coincides with the passage on the pressure gauge on the start line;

b. the transit time on the pressure gauge will be lapped manually by the Time-keepers assigned for the purpose, will measured to the second lapsed.

9.5 PASSAGE CONTROLS (CT/PC)

The purpose of the Passage Controls (CT/PC) is to check the strict adherence to the established route.

The opening and closing times of the CT/PC will be notified by the Clerk of the course Bulletin. At the CT/PCs, drivers must stop the cars in order for the check stamp or "all clear" stamp to be printed in the relative area of the Time Card. The absence of this stamp will mean exclusion.

All the CT/PC areas will be properly marked with signs in compliance with the examples attached to these SR (Attachment 6).

Vehicles transiting through a CT/PC area in the opposite direction or one other than the one decided by the Organiser, will be excluded from the race.

9.6 ARRIVAL

Arrival check will be in Brescia - Viale Venezia and will be open from 15:30 on Saturday 19th May 2018.

Mercedes-Benz Mille Miglia Challenge 2018
Regolamento Particolare di Gara - Supplementary Regulations

After the arrival CO/TC competitors will proceed following the instructions given by Marshals, to the arrival ramp.

Article 10 - MAXIMUM LATENESS

A crew will be over the maximum lateness:

- if it transits through a Time Control (CO/TC) with more than 30 minutes delay.
- if it accumulates delays through various Time Controls totalling more than 60 minutes delay.

Only at the starting CO/TC of each Leg will a crew be considered over the maximum time limit if they transit with more than 15 minutes of delay.

The opening and closing times of the Time Trials (PC/TT), the Average Trials (PM / AT) and of the Print Checks (CT /CP) will be notified through an Clerk of the course Bulletin.
